

# Picture Shipper™

INSTRUCTION SHEET

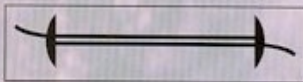

**Step One:**  
Place the artwork or mirror on one of the corrugated panels and mark the holes closest to the frame.

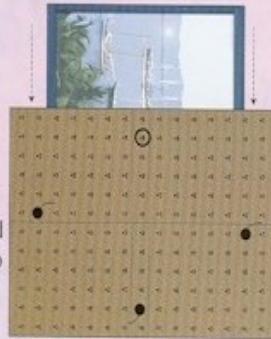

**Step Two:**  
Remove the artwork or mirror and set aside. Place the two panels together **without** the artwork in between them.

**Step Three:**  
Feed the cable ties through the respective holes in both panels with the bumper sandwiched between the panels. **Leave one of the four holes undone. Do not tighten!** Cable ties interlock each other by passing through the opposite button head.

**Step Four:**  
Slide your artwork or mirror in between the loosely fastened panels and attach the final cable ties through the hole left open in step three. Then tighten all cable ties firmly.

**Step Five:**  
Foam corners should be placed between the foam panels around the corners of the frame. Tape the panels together.

**Step Six:**  
Slide the assembled Picture Shipper™ inside the box and tape shut.

## Picture Shipper Instructions

### BENEFITS

- Reusable
- Inexpensive
- Fast
- Available in various sizes
- Safe

### TESTED BY UPS TESTING LAB

Passed both ISTA - IA and Smite tests  
Test results available upon request.
